**Mississippi's Sweep Masters, Inc.**

**Announced as United States**

**Featured Contractor for September 2015**

The Editorial Board of WorldSweeper.com, in conjunction with its affiliated World Sweeping Association, is pleased to announce the selection of Sweep Masters, Inc. as its Featured Contractor for September 2015. Ranger Kidwell-Ross, Executive Director of the World Sweeping Association, says of principals, Cheryl Monroe and Don Odom, and the company they operate:

"Sweep Masters exemplifies the standards we require for our monthly spotlight featuring a professional power sweeping contractor. The company is an ethical, top-flight firm that puts our industry into the best possible light by providing the highest

quality of professionalism. With over 5,000 sweeping contractors just in America, the entire management and employee team at Sweep Masters are to be congratulated on being recognized as a firm deserving of one of only twelve such awards presented each calendar year.”

Sweep Masters was founded by Don Odom in 1998 in Gulfport, Mississippi. In 2003 the current president, Cheryl Monroe, joined the company and, in 2005, became a partner just before Katrina struck. Overnight, the firm lost 75% of its business and the ownership duo was forced to take over all tasks in the company.

In the decade since, the company has expanded slowly to its current position today, which is as a thriving firm that is currently expanding to have a second office in Mobile, Alabama. For its continued professionalism and progress in spite of such difficult operating conditions, Sweep Masters was chosen to receive this national power sweeping industry honor.

The World Sweeping Association and WorldSweeper.com comprise the world's largest and most comprehensive information resource for power sweeping.
