

SWEEPERTHANE®

STREET SWEEPER WEAR PARTS Transition Sleeves

Superior Engineered Elastomers has developed and patented the Sweepertthane® Transition Sleeve to increase the life of expensive steel transition and hopper tubes.

These polyurethane sleeves can add over ten times the life to a steel transition and are much simpler and less expensive to replace.

superior

YOUR CHOICE FOR QUALITY AND DEPENDABILITY.

Superior's Sweepertthane® Street Sweeper Wear Parts set the highest standards of industrial performance offering exceptional life in the most challenging operating conditions. Proven by OEMs, municipalities and contractors throughout the industry to be the most durable wear parts available, Superior's specially-formulated Sweepertthane® polyurethane is site-proven to outlast rubber and steel up to seven times. Sweepertthane® Transition Sleeves are available for replacement on a wide variety of street sweeping equipment.
