**WHY:** After attending the National Pavement Expo I heard a lot of contractors talk about how good the roundtables and networking were and the information they received. One of the downsides we heard was contractors now must wait for the next event in another year to do this again. So, I produced the idea of having a virtual monthly sweeper round table discussion.

**HOW IT WILL WORK:** Each month we will have a topic and a host that's an expert on that specific topic. That topic will be discussed for roughly the first 30 minutes of the call. The remainder of the call, which should be roughly 30 minutes totaling the one-hour call, will be for participants to put out on the floor a problem or idea of something they may be going through in their business. Everyone can discuss ideas and solutions that may have or have not worked for them. This will be a good way to keep all the sweeping contractors and the sweeping community engaged and hopefully you will see the value in the networking. I think it is a great way to keep everyone engaged and network with some solutions to other possible problems that our fellow contractors may have.

Jay Presutti is inviting you to a scheduled Zoom meeting.
